

Meggitt Defence Systems

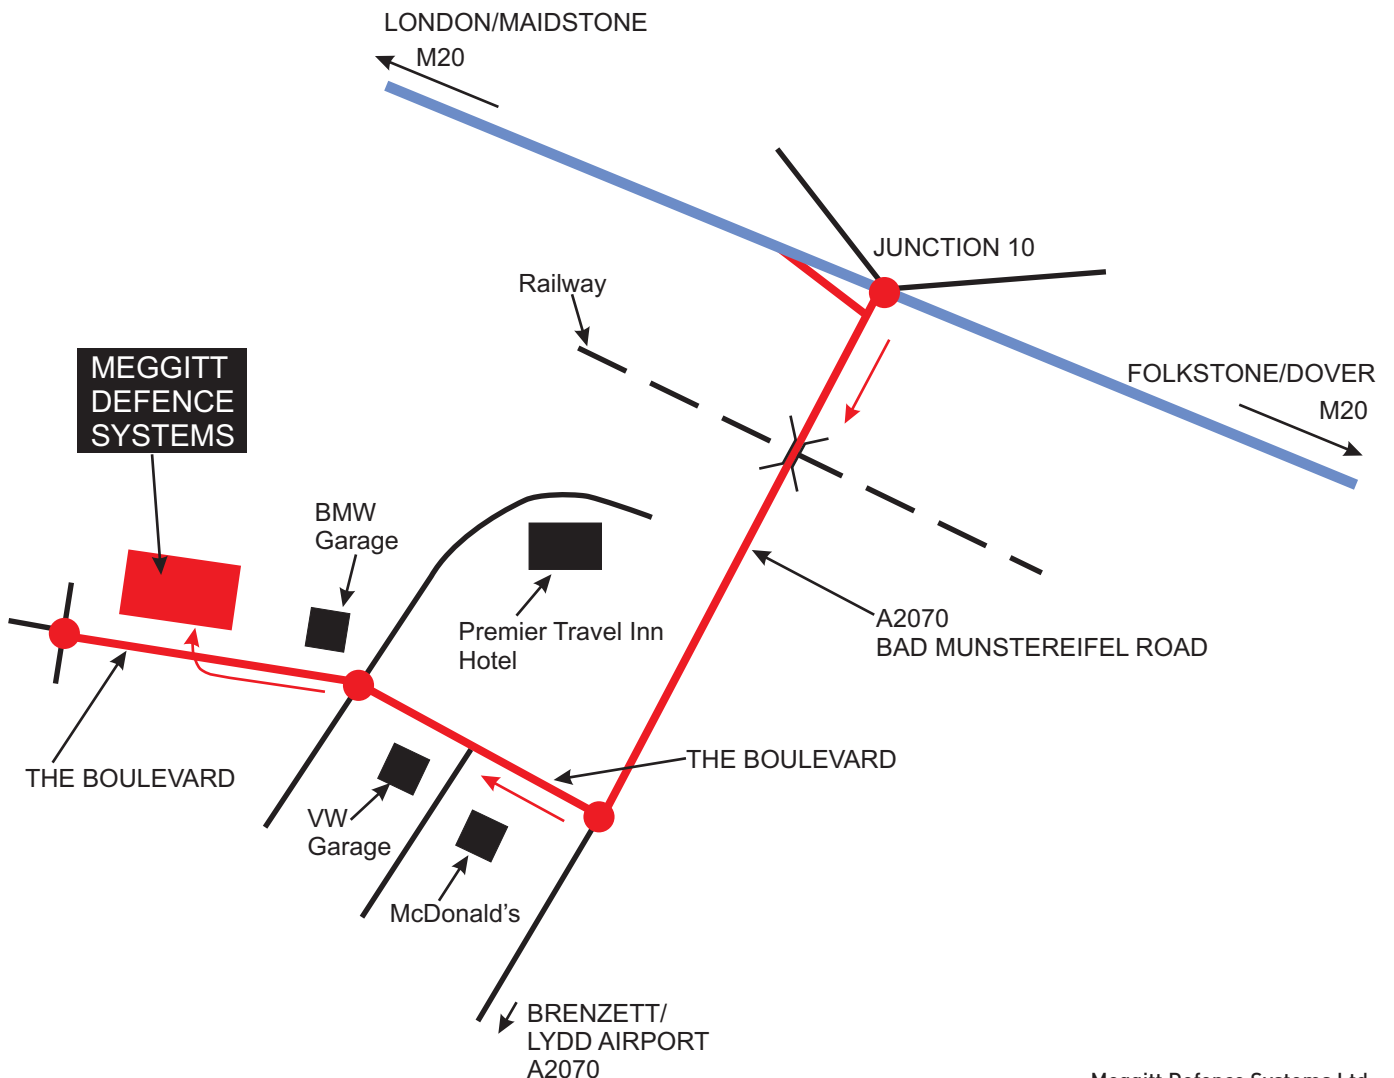

Meggitt Defence System's UK site is located in Ashford, Kent, about 50 miles southeast of London. We are close to Ashford International Railway Station, the Channel Tunnel and just a few miles from the Channel ports of Dover and Folkestone.

Find us near junction 10 of the M20 motorway.

To find us, follow the red route on the map, leaving the M20 motorway at junction 10, joining the A2070 (Bad Munstereifel Road) following signs to Brenzett and Lydd Airport.

After going over a bridge crossing a railway line, go right at the first roundabout into The Boulevard.

At the next roundabout go straight ahead (the second exit), you will still be on The Boulevard. Meggitt Defence Systems will be on your right after the BMW Garage.

Meggitt Defence Systems Ltd.,
The Boulevard,
Orbital Park,
Ashford,
Kent.
